

# A Cube

Long u-silent e (u as in tube)

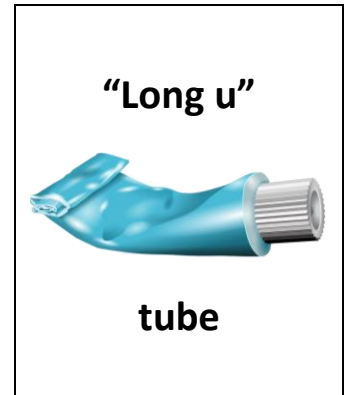

A cube is a shape with six sides. All six sides are square. All six squares are the same size. A cube has twelve edges. All twelve edges are the same length. There are many things that have a cube shape:

- gift boxes
- ice cubes
- storage boxes
- dice

Can you think of other cube shapes?

**Word Study:** Students underline each “Long u”  
then sort all words into verbs, nouns, and other

**Sound out**

cube, cubes

**Remember**

square, squares

twelve

edge, edges

length

storage
